CHAPTER XVII.

*Discipline.*

1. The rewards and punishments of this Institution shall be addressed to the sense of duty and the principles of honour and shame.

Principles of Discipline.

2. The punishments of the College shall be friendly warning and caution by an officer of the College, or by order of the Faculty; admonition before the Faculty; suspension from the privileges of the College, for a definite time; indefinite dismissal, with notice to the parent or guardian of the offender; and formal and public expulsion. Beside which, the Faculty may, in case of gross deficiency, degrade a student to a lower class or refuse him promotion at the Commencement.

College punishments.

Offences.

3. Offences are any acts, omissions, or habits, unfavourable to the peculiar duties of a student, or incompatible with the obligations of morality and religion, or inconsistent with the propriety, decorum or courtesy, which should always characterize the gentleman. As the end of the College is to train a body of gentlemen in knowledge, virtue, religion and refinement, whatever has a tendency to defeat this end, or is inconsistent with it, shall be treated and punished as an offence, whether expressly mentioned in the laws or not. The sense of decency, propriety and right, which every honourable young man carries in his own bosom, shall be taken as a sufficient means of knowing these things, and he who pleads ignorance in such matters is unfit to be a member of the College. The Board expects and requires the students to maintain the character of refined and elevated Christian gentlemen. It would be ashamed of any man, who would excuse breaches of morality, propriety and decorum, on the plea, that the acts in question were not specifically condemned in the College code. It earnestly desires that the students may be influenced to good conduct and diligence in study by higher motives than the coercion of law; and it mainly relies, for the success of the institution, as a place of liberal education, on moral and religious principle, a sense of duty and the generous feelings which belong to young men engaged in honourable pursuits.

On what grounds students may be summoned before the Faculty.

4. Students may be arraigned for offences on the following grounds: The marks of the monitors; the report of an officer of the College; credible information, imparted to the Faculty from any quarter, giving rise to reasonable suspicion; circumstantial evidence, giving rise to a presumption of guilt; and in the case of violence or injury to their own persons, upon the report of servants. No student, however, shall ever be convicted except upon his own confession, tacit or express, or full and satisfactory proof.

In what cases students to give information against each other.

5. One student shall never be required to give information against another, except when riotous or disorderly conduct shall take place in a student's room. In that case, the occupant, if he were present at the time, shall be bound to indicate the true offender, or be considered as assuming the guilt of the offence, and be punished accordingly.

Dishonourable concealment of an offence.

6. A student, who has dishonourably concealed his own guilt and has permitted another to be punished for his offence, shall, upon detection, be expelled.

7. When a student is arraigned upon suspicion, arising either from credible information, or from circumstantial evidence, the offence of which he is suspected, shall be distinctly stated to him, and he shall be required to confess or deny, that he had any agency in the matter. A refusal to answer shall be treated as a tacit confession of guilt. The name of an informer is, in no case, to be given up without his authority.

Mode of proceeding when a student is taken up on suspicion.

8. Circumstances giving rise to reasonable suspicion or presumption of guilt are such as these: absence from rooms at unlawful hours; being present at the time and place of an offence; residing in a tenement or entry in which an offence has been committed; or being there on a visit at the time of its commission; absence from morning prayers after a disturbance the night before.

Circumstantial evidence.

1. In case of any improper or disorderly conduct, the Faculty may presume that all students who were out of their rooms, at the time of their visitation that day or night, provided they were visited in study hours, or after the hours of retirement, are, in some way, implicated, and may call upon each, or every one of them to confess his guilt, or exculpate himself from the charge.

2. If any improper or disorderly conduct take place in a particular tenement or entry, the Faculty may, without visiting the rooms, call up all the occupants of that tenement or entry, or any number of them, or all who, upon visiting the rooms, are found in it, or any number of them, and put each student upon his confession or exculpation.

3. If about the time of an offence, any student should be seen going to a particular tenement or entry, apparently from the place of the offence, and cannot be designated, all who may be found in that tenement or entry upon its visitation, may be arraigned, and each put upon his confession or exculpation.

4. If several students should be seen together at the time, and place of an offence, and yet the actual offender cannot be designated, the Faculty may arraign all, or any of the students thus seen together, and put each upon his confession or exculpation.

5. All absentees from morning prayers, when there has been riotous and disorderly conduct the night before, may be presumed guilty of having participated; and, accordingly, be put, each, upon his confession or exculpation.

9. The punishment of offences to which no particular penalty is assigned in the laws is left to the discretion of the Faculty.

Punishments, when not specified, left to the discretion of the Faculty.

Mode of expulsion.

10. Whenever a student is convicted of an offence which, in the judgment of the Faculty, ought to be visited with expulsion, they shall forthwith suspend him, and order him from the College, and from the Town of Columbia, if his home is not there, and make a minute and particular report of the whole case to the Board of Trustees at its next meeting.

Mode of Dismission.

11. The President, with the assent of the Faculty, may request any parent or guardian to remove from College any student, his son or ward, who, in the opinion of the Faculty, is not fulfilling, or is not likely to fulfil, the purposes of his residence in College, or who, in their opinion, is, from any cause, an unfit member of the Institution, and the student shall immediately leave the College and also the Town of Columbia, unless his home is there.

\$6000 appropriated for Chemical department.

1. The Committee on Public Buildings, to whom was referred the message No. 4, of his Excellency the Governor, communicating the report of the Trustees of the South Carolina College, stating the injury sustained to the Chemical apparatus and Philosophical instruments, for want of proper and commodious apartments for containing the same, Report, That they have had the same under consideration, and carefully viewed the rooms appropriated in the South Carolina College for Chemical, Optical and Philosophical experiments, and find that, from their inconvenient and contracted size, and improper aspect, the object of the Legislature, who, at considerable expense, have appointed and endowed Professors of Chemistry and Astronomy, is nearly defeated for want of proper apartments for exhibiting experiments for the illustration of these important sciences, and that the Chemical apparatus, and Astronomical instruments procured for the College, at great expense, are very much injured from the contiguity of the experiments made with fire and gases, many of which are, in their nature, corroding and destructive to the metals of which the instruments are in a great measure composed. Your Committee, therefore, on a principle of sound economy, recommend that a suitable building be erected on a proper site, detached from the other buildings of the College, for the accommodation of the departments of Chemistry, Astronomy and Optical experiments: and that six thousand dollars be appropriated for this purpose, and that the Trustees of the South Carolina College be appointed to carry the same into effect.

6. The Committee on the South Carolina College, to which was referred that part of the Governor's Message in relation to an appropriation for the erection of two Professor's houses, and the enlargement of those already built, beg leave to submit the following report: The Trustees of the College, having determined to abolish the Tutorships for the purpose of having the two under classes instructed entirely by able Professors, found it necessary to establish additional Professorships, so that there are now seven Professors including the President, and there are only five houses or tenements, it is therefore absolutely necessary to have two additional buildings or tenements, and to make an appropriation for that purpose. In relation to the enlargement of the houses already built, your committee are not satisfied as to the practicability of the plan, or the necessity of the enlargement. Your committee therefore respectfully recommend that an appropriation of ten thousand dollars, if so much be necessary, be made for the erection of two Professor's houses or tenements. And that an appropriation of six hundred dollars be made for the rent of two houses for two Professors, during the ensuing year.

*Be it also resolved*, That the Intendant and Wardens, and the citizens generally, of Columbia, are earnestly entreated, as they value the great interests of morality and religion, the decencies of life, the health and general welfare of their community, and the character especially of the important institution established in their bosom, to co-operate, by their example, and by such local legislation as they may deem practicable, to suppress these most disgraceful and corrupting nuisances.

*Rep. and Res. of 1836, pp. 127 and 128.*

*In Senate, December, 17, 1836.*  
9. The Committee on the South Carolina College, to

which was referred the communication of the President of the Board of Trustees of the South Carolina College, in relation to an appropriation for College buildings and so forth, having had the subject under consideration, beg leave to submit the following Report: The College buildings were originally intended and constructed for the accommodation of ninety-six students; four rooms in the centre buildings have been appropriated to the accommodation of students; so that, at this time, one hundred and four students can be conveniently accommodated; nor can a greater number be accommodated without putting three students in one room, an arrangement utterly subversive of all studious habits, as every one of experience and practical knowledge on this subject must know, to say nothing of the inconvenience and unhealthfulness of it. There are now, between one hundred and forty and one hundred and fifty students in the College, and, in all probability, the annual average number will be at least one hundred and fifty. The Legislature must therefore either subject the students in the College to an arrangement not only inconvenient and unhealthful, but totally inconsistent with all habits of study, or else say to the people of the State, that they cannot send more than one hundred and four students to College, or else make the appropriation of twenty-five thousand dollars.

\$60,000 for  
College  
buildings.

The hall containing the College Library is entirely too small and inconvenient, nor can it be enlarged to any advantage whatever in the same building: but one of the principal reasons for the removal of the Library, is its proximity to the laboratory, which renders it entirely unsafe; your committee, therefore, recommend an appropriation of fifteen thousand dollars for the erection of a Library-hall.

Every one acquainted with the College Library, must be fully satisfied of its deficiency, more especially in standard English works, on Moral and Intellectual Philosophy and on Divinity; but without undertaking to indicate to the Trustees what sort of books shall be purchased, your committee recommend an appropriation of five thousand dollars for that purpose.

The commons-hall is not sufficient to accommodate one hundred and fifty students, nor can it be conveniently enlarged in any other manner than by converting the second story to one or more halls for the accommodation of the students, in which case it would become necessary to make some provision for the steward and

his family ; a very convenient and cheap house and lot can be purchased for that purpose ; and your committee recommend an appropriation of five thousand dollars, for alterations and repairs in the steward's house and commons-hall, and purchase of a house and lot for the steward.

Your committee are satisfied that it will require an appropriation of about ten thousand dollars to cover other repairs and necessary expenditures, some of which have been already incurred.

Your committee, therefore, respectfully recommend an appropriation of the foregoing sums, amounting to sixty thousand dollars, for the above mentioned purposes.

11. The Committee on Education, to which was referred Message No. 6, of his Excellency, the Governor, beg leave to report: That they have had the same under consideration, and are of opinion that the best interests of the College require that its Library should be gradually and progressively increased. The present Library, though well selected, is comparatively small and incomplete. It affords, however, a nucleus around which may be gathered a collection of books which will in time constitute a Library, that will confer the highest benefit on the College, and do honour to the institution, and the character of the State.

\$2,000 annually appropriated for the Library.

The committee are of opinion, that the best mode of increasing the Library, is by making a small annual appropriation, and adding thereto the surplus of the tuition fund remaining in the hands of the Treasurer of the College, after defraying all the expenses with which that fund is now charged.

Your committee therefore recommend the adoption of the following resolution:

*Resolved*, That the sum of two thousand dollars, together with the surplus of the tuition fund, be annually appropriated for the increase of the College Library; the same to be drawn and expended under the authority and direction of the Board of Trustees.

Committee of  
Trustees to at-  
tend the exam-  
inations.

The Committee on the College, Education and Religion, to whom was referred so much of the Governor's Message, No. 1, as relates to the College and the system of Instruction, beg leave to Report: That they have duly considered the same.

Impressed by the sound views presented in the Message, and concurring in these views almost entirely, the Committee yet feel constrained, by both the condition of the Treasury, and the present circumstances of the people, to withhold the Legislation which they otherwise would have proposed for your deliberation.

In respect of the College, the Committee recommend the passage of the Resolution herewith submitted :

*Resolved*, That the Trustees of the South Carolina College be, and they are hereby required to attend, by a Committee of their Board, the regular examinations of all the classes.

*Resolved*, That the Senate do agree to the Report.

*Ordered*, That it be sent to the House of Representatives for concurrence.

By order,

W. E. MARTIN, C. S.

*In the House of Representatives, Dec. 15, 1845.*

*Resolved*, That the Senate do agree to the Report.

*Ordered*, That it be returned to the Senate.

By order,

T. W. GLOVER, C. H. R.
